Address:
KZN, KwaDukuza,
15 Sunny Hill, Sunny Park

Volunteer Work

Work as a musician at my local church (Philadelphia FGC).

Career Objective

Work as an entry-level Software Engineer in a firm that takes full advantage of my technical and innovative programming skills. Looking for a progressive company that not only values my analytical abilities but will also provide scope for developing my knowledge. I am a project driven and focused individual and I intended to contribute greatly to your company's goals and vision.

Skill Highlights

- High Stress Tolerance
- Solid Communication Skills
- Brilliant at Research and Development
- Dedicated and Innovative
- Team Player
- Self-Motivated and Highly Competitive

Achievements

- In High School I was able to take 7th place in District for Information Technology. I was later offered a place at the University of Kwa Zulu-Natal to study a Bachelor of Science in Computer Engineering.
- During my 2nd year of University I recieved a Bursary from the Fulton Trust Fund to help Futher my Tertiary Education.
- I attended and particiapted in the Student Cluster Competition for High Performance Computing in July 2019 and again in December 2019. My team and I competed against students from all the major Universities in the Country. During this Competition we learned and practiced on a High Performance System. This helped me develop my understanding of Linux and how optimising both software and hardware components are essential to obtaining the best performance from a computer system.

Personal Profile

I am a focused, energetic and ambitious individual who has a passion for all things software related. I think of programming as a technique used to better our lives and the lives of those around us. I wish to use and grow my skills to create and design software that will improve our society. I am also loyal, dedicated and I can work at a steady pace with a high level of concentration for a long time.
